

GET READY FOR MOCRA WITH ECOMUNDO REGULATORY EXPERTS

Safety Substantiation

MoCRA introduces a closer control of **cosmetic products safety**. EcoMundo regulatory experts can perform for you the following safety analysis and reports:

LEVEL 1

1ST STEP EVALUATION

Margin of Safety Calculation (MoS)

- The 1st step to assess the safety of your products
- Get the results and our recommendations within 10 days
- You only have to provide the formula and its exposure

LEVEL 2

PRE-SAFETY EVALUATION

Toxicological Risk Assessment (TRA)

- Evaluate your products' toxicological profile
- Gather safety documents and data
- Get your TRA ready in 3 weeks made by toxicological experts in Paris

LEVEL 3

FULL SAFETY EVALUATION

Complete Cosmetic Safety Report

- Get a complete safety assessment of your products
- Gather in one place all data for safety substantiation
- Safety report inspired by the E.U. CPSR and made by toxicology experts in Paris

Regulatory guidance

MoCRA will come into force in several phases and **additional regulatory constraints are expected** to be released in the following months and years. Partner with EcoMundo Regulatory Experts to oversee the changes to come and be guided at every step.

Next step: Facility Registration and Product Listing (December 29, 2023)

Chose security and comfort by delegating registration to our regulatory experts.

US Agent

If your facility is located outside of the US and manufactures cosmetic products intended for the US market, you will need to **appoint a US agent**. Appoint EcoMundo as your US agent as of now to follow MoCRA requirements.

Ensure your compliance with our experts!
