

# HOW TO PLACE A COSMETIC PRODUCT ON THE EU MARKET?

To import your cosmetic product to Europe, you must comply with regulation 1223/2009. Follow these 6 steps with EcoMundo!

1

## Responsible Person

Chose who will be the Responsible Person of your product in Europe. It can be you, the person placing the product on the EU market or a designated third person.

2

## Data collection

Gather all the documents required for compliance: formula, documents on raw materials, stability and challenge testing, manufacturing method, etc.

3

## Formula Review

Check the regulatory compliance of the formula to export to ensure the cosmetic product follows the requirements outlined in the regulation.

4

## Label Review

Check that labeling requirements all appear on the label and that claims comply with the regulation.

5

## PIF Drafting

The PIF (Product Information File) gathers all the safety information related to the cosmetic product and includes a Safety Assessment.

6

## CPNP Notification

The last step before placing the product on the market is to notify your product on the CPNP portal.

**YOUR PRODUCT IS  
READY TO GO TO  
EUROPE!**

**EcoMundo guides you through the 6 steps!**

The best way to ensure your compliance with EU requirements and to succeed your export strategy is to be accompanied by local experts.
